VT Green Mountain Conservation Camp—Buck Lake, Woodbury, Vermont

Week-Long Basic Camp for Youth Ages 12-14

Cost: \$250

Green Mountain Conservation Camp (GMCC) offers hands-on learning experiences about fish, wildlife, ecology, botany, forestry, hunter firearm safety, outdoor first aid, and so much more! Wildlife education and outdoor skills are the focus of GMCC and the program's goal is to cultivate a caring attitude among our youth for Vermont's fish and wildlife resources. GMCC offers opportunity for hiking, canoeing, fishing, archery, .22 rifle and shotgun shooting, orienteering and other fun activities. Vermont's conservation camp program is unique because it is sponsored and directed by Fish & Wildlife Department professionals—the same people who manage the fish and wildlife resources. Working biologists, foresters, game wardens, and conservation educators teach young people about Vermont's forests, wetlands, and wildlife. Youth develop valuable life skills and gain environmental knowledge so they can continue the state's traditional rural pursuits—enjoying all aspects of the outdoor world. The program's greatest strength is connecting young people to the outdoors. **Campers must first attend a basic week before they can attend an advanced week. There are separate weeks open for boys and girls. A camper must have reached their 12th birthday before or during their camp week. No exceptions are made for age. Applications are taken on a first-come, first-served basis. - **Blinds, Boats, Buddies: Waterfowl Identification and Hunting**
- **Intro to Backpacking**

(Campers are not allowed to take the three courses in the same session.)

Kingdom Mountain Bike Camps

Kingdom Camps is a fun, skill-oriented mountain bike camp for boys and girls who want to improve and have fun. We have a variety of programs spanning from beginner to expert, ages 6-17. Kingdom Trails Flow, Kitchel jump progression, and our private skills area combine into ideal environments for teaching, learning and FUN!

Kingdom Camps is committed to teaching beyond the trails. In addition to time spent on bikes, practicing flow, balance, motor controls and more, they are getting dirty and sweaty while having a blast, practicing skills and being in the moment! At Kingdom Camps, we teach kids how to set goals, push limits, and have fun, all while building lasting confidence in themselves.

Day Camps

Kingdom MTB Camps is a skill-based camp that strives to improve riders' ability and confidence while having fun. We develop young riders in a healthy social environment filled with positive role models and peers. We want to help your child get excited about getting sweaty and dirty, while developing mountain bike skills and love for a lifelong sport. Our coaching methods follow proven PMBI* methods for skill acquisition and riding ability. Our sessions typically have 30-35 campers and are split into 4 groups of 6-8 campers with 1 coach and 1-2 counselors per group. Small athlete-to-coach ratios provide a safe, positive learning environment and help ensure a fun day on the trails. Our programming covers braking, riding position, trail awareness, turning, shifting, and more. Some groups progress to maneuvers like wheelies, bunny hops, jumps, and tricks. We use the Kingdom Trails network, pump tracks, and our very own private skills area during the session. Our main campus is filled with beginner to expert elements, including rollers, berms, bridges, and more. We give kids time to play and explore the home campus as we progress through the week.

AGES AND GROUP SELECTION (read this to help place your children in the right group)

*Mountain biking is a skill-oriented sport where strength and size can have a significant effect on abilities. Ultimately, we want your child to be in a program with others of similar ability to create a positive and productive environment while out on the trail. We are NOT a never-ever camp and your child will spend significant time on their bike. At a minimum, your they should be able to start and stop on their own, pedal the bike on flat terrain, make a 180 degree turn while pedaling and have the proper up-to-date equipment. *Professional Mountain Bike Instructor Association*

Hosmer Point Camp

Hosmer Point, located in Vermont's Northeast Kingdom, is a place campers call home. Situated lakeside, the camp provides enriching experiences that foster self-confidence and send young people into the world better equipped to build community and lead positive change. Each day is filled with play, work, and exploration which lead to life-long friendships. The staff are positive role models who teach campers to engage, contribute, and challenge themselves. At camp we live by and instill our community values: Cooperation, Generosity, Kindness, Respect, Trust, and Unity. As part of a non-

profit foundation with the Craftsbury Outdoor Center, we use sustainable practices and teach environmental stewardship.

Community

Hosmer Point enrolls fewer than 100 campers per session. Our campers and staff represent an increasingly broad spectrum of economic backgrounds, family structures, racial, ethnic, and gender identities. Our small size and emphasis on inclusion builds a strong community, founded on respect for each other.

Activity Choices

Campers set their own schedule each day, fostering independence and teaching time management skills.

Sliding Scale Tuition

Families pay what they can afford so camp is a possibility for all children.

Unplugged Campus

No electronics at camp! We promote connecting face-to-face.

Staff

All staff complete background checks and meet our high standards for personal conduct and training. Staff build personal connections with campers through activities and cabin life.

Farm-to-Table Meals

Local and fresh! We accommodate many dietary restrictions.

Activities

Campers have the same focus areas for a full week, allowing time to develop skills. Electives are different every day and promote trying new things. With 6-8 choices for each focus and elective period, there is something to match each child's passion. Campers and counselors can even invent new activities based on their interests.

Field Form & Forest 2025 Summer Camp Program

We strongly believe that every child deserves a lot of time outdoors each day and plenty of self-directed learning experiences. Research shows that time in nature & "free play" provide myriad benefits to a child's emotional, physical, sensory, cognitive, and social development.

Also, when children feel connected to nature at a young age, they are more likely to become land stewards & environmental advocates as adults. Through our programs, we strive to cultivate curiosity, community & nature connection here in the Northeast Kingdom.
